

Allan Block Fence System™

*Many more colors than those shown here are available upon request, depending upon the quantity required.

AB Fence™ is a mortarless system with two main components—Post Blocks and Panel Blocks (as well as Corner Blocks & Caps). Posts are constructed on concrete piles below grade, and reinforced with steel and grout. Panel sections are constructed using panel blocks dry-stacked onto a gravel base. Reinforcement steel and grout are used to form bond beams, giving the panels rigidity. Each design is determined by wind and seismic loads transmitted from the panels to the posts. The panels are free to move vertically, eliminating the need for frost footings.

*AVAILABLE COLORS:

Limestone Blend

Earthen Blend

Piece	Dimensions	Approx. Coverage	Approx. Unit Weight	Units/Pallet
AB Post Block	7" H 17-5/8" W 11-5/8" D	0.86 Sq. Ft.	70 lbs.	48
AB Panel Block	7" H 17-5/8" W 5-1/2" D	0.86 Sq. Ft.	47 lbs.	72
AB Half-Panel Block	7" H 9" W 5-1/2" D	0.44 Sq. Ft.	27 lbs.	144
AB Post Corner Block	7" H 11-5/8" W 11-5/8" D	0.56 Sq. Ft.	55 lbs.	48
AB Capstones	3-1/2" H 17-5/8" W 11-5/8" D	0.4 Sq. Ft.	71 lbs.	56

Allan Block's patented, pre-engineered system is unsurpassed when it comes to ease of installation. Nitterhouse Masonry Products, LLC manufactures AB products for distribution in PA, MD, VA and WV.
