# GROUND FACE FINISH

## LOADBEARING, UNIFORM CMU'S

Nitterhouse's ground face CMU is produced with the highest quality materials and made with extreme attention, making every block uniform. Not only does our ground face block meet ASTM-C90 standard specification for loadbearing concrete masonry units, they can also be used both at and below grade. We offer a vast variety of colors and matching Type-S mortar. Custom colors are also available. Contact your representative for more information.
