- Up to 48" Wide x 24" Deep with 6" Riser

— Colors and Sizes on Reverse —

Precast concrete Oxford StoneSteps™ by Nitterhouse save time and money ... and add a touch of classic beauty.

Produced as one solid composite unit, Oxford StoneSteps™ are a superior alternative to wooden or poured concrete steps for both residential and commercial applications. These sturdy units are sized from 8" wide up to 48" wide x 26" deep, each with a standard 6" riser, and feature a smooth top and bottom surface with a textured, natural stone-look nose profile.

Oxford StoneSteps™ are produced with highly durable, 5,000 psi concrete in two natural, attractive colors — Earthen Blend and Limestone—to blend perfectly with any type of wall or landscape. Units can be stacked or embedded into sloped areas.
