SCENIC LEDGESTONE – HARVEST

5 GENERATIONS OF INTEGRITY & INNOVATION

Since 1923, The Nitterhouse family has expanded upon its expertise and continued to innovate the industry. Today, Nitterhouse manufactures numerous high-quality concrete products including block, paving stones, retaining walls, site amenities, veneer stone and more.

Matt Diller, 5th Generation Nitterhouse Family Member has always had an eye for perfection and detail. Matt hand selects all natural stones for the master molds, trimming and chiseling as necessary to capture every detail. He insists all colors are hand painted to ensure the most realistic manufactured stone in the industry.
